### Prop Selector - Boat Prop Guide

Selection Guides, Calculators, & Tools One of the greatest joys of being a boating enthusiast is choosing boat props. In order for you to choose the best type of prop for your boat, you must have a certain knowledge of boat propellers. Knowing certain key criteria will help you to choose the best boat prop for your particular situation.

### Best Propeller Selection Guide, Calculator, & Tool ...

Selecting the correct prop should result in your engine running within the designed rpm range at Wide Open Throttle (WOT). Your owner's manual should include this spec—usually 5000-5500rpm for an outboard or 4200-5000rpm for a sterndrive—or your mechanic or dealer may know.

### Selecting a Propeller | West Marine

For example, Evinrude 225hp V6 2-Stroke 1986-1990 is enough information to get an appropriate prop list. From there, choose right (standard) or left-hand rotation, stainless steel or aluminum and propeller pitch. The charts include the number of splines on the prop shaft to help identify your engine.

### Boat Prop Selector - Boat Engine Brands

Selecting a performance goal is crucial to finding the right prop. The Prop Selector will recommend a propeller based on the Performance Goal you select. For example, one propeller may be better suited for "Acceleration" while another propeller will be best for "Mid Range Cruise / Fuel Economy."
