and certification.

[Download] Cisco CCNA Routing & Switching (200-125):The ...

The main differences between Routing and Switching are as below. The function of Switching is to switch data packets between devices on the same network (or same LAN - Local Area Network). The function of Routing is to Route packets between different networks (between different LANs - Local Area Networks). Switches operate at Layer 2 of the OSI Model (Datalink Layer).

What are Routing and Switching | Difference between ...

In this two-part series, Sean Wilkins, co-author of CCNA Routing and Switching 200-120 Network Simulator, discusses current network routing protocols and methods for implementing them. This article covers the types of static versus dynamic routing
