Contax G1

Manual focusing with the G1 is actually surprisingly easier. First, one can just use zone focusing and turn the demarcated focus dial to the desired distance . For instance, if you know you're shooting something far away, just manually focus to infinity.

The Contax G1 Takes on the World

The Contax G1 debuted in 1994 and is built on an aluminum alloy chassis with titanium outer panels which makes it a very rugged body. The lens mount is stainless steel. The finder is non-focusing and covers only the lenses in the G line from 28mm to 90mm (there are accessory finders for the 16mm and 21mm) with parallax correction.

Contax G1 FAQ, Information and Review

If you want a manual focus camera, buy a Voigtländer Bessa or Leica. The Contax G1 camera meter is center weighted, but while it works well, the exposure compensation is a learned skill that is advised to tackle and perfect. That said, Ektachrome has very little exposure leeway, and all the images are spot on. ...

The G1 and G2 can be focused manually, but it's a strange process using a little wheel on the front of the camera body and checking for an LED confirmation of correct focus in the viewfinder; since there isn't a coincident image or other image-based focusing mechanism you're basically watching for a light to go on to indicate when the camera is focused properly.

Contax G issues

RTS, RTS2, T, T2, T3, G1, G2, TVS, TVS2, TVS3, AX, Aria, 645, N1, due to the complete lack of spares worldwide. Additional l y l am unable to repair at the moment ANY RTS3 with viewfinder backlight issues or power issues due to the lack of DC/DC converter spares.

What I DO & Don't Repair - Contax Repairs

I've owned both. The G1 is maybe the better looking camera of the two for what it's worth but the G2 has useful improvements including a better viewfinder, better AF and includes a AF on button. In the know G2 users understand the AF on button is the best way to autofocus. On the G1 that half push often leads to accidental shutter activation.

Contax G1 vs. G2

The Contax G2 is like no other rangefinder on Earth. In fact, its technological ethos employs certain tricks that are outright heresy to diehard fans of the classic rangefinder; it runs on batteries, its manual focus mode is terrible, and its viewfinder lacks frame lines and a focusing patch. But in spite of these radical [...]

The flange distance between the front surface of the lens mount and the film plane is only 29 millimetres (1.1 in), and Contax released the GA-1 adaptor which allowed the use of Contax/Yashica mount lenses. Unlike most bayonet-mount lenses, the Contax G mount uses a breech-lock mechanism similar to the manual-focus Canon FD and FL mount.

Contax N1 Instruction Manual

The camera comes with its caveats though; manual controls are a bit cumbersome. Thankfully, there is a built-in light meter, so judging exposures is a cinch. These cameras can be very pricey but usually stay under \$1,000, which is much more affordable compared to an M-Mount Leica 35mm f2 lens. ... The Contax G1 is a titanium-clad, Japanese-made ...
