and POH stands for Pilots Operating Handbook. Both the AFM and POH are manuals or handouts for operation of an aircraft. Though these two are considered to be almost the same information regarding an aircraft's operation, they have slight difference between them.

Difference Between AFM and POH | Difference Between

A POH - Pilot Operating Handbook - is a airplane serial number specific manual produced by the manufacturer. If you look at the POH in the airplane you fly, you will see that on the first page - your N-Number, your serial number.
