directions for thought about the future of museology. Focusing on new trends in museology recognizes that, during the past decades, the world of museums has undergone substantial change.

New trends in museology - OpenEdition

Mentioning new trends in museology is to recognize that, over the past decades, the world of museums has undergone substantial change, not only because there are many more museums throughout the world but also because they have radically changed, whether in the methods of communication (the relation to the display or the development of museums as media), or in the conversion of heritage, in the relation to what is contemporary, or in the approach to the public.

Key Concepts of Museology - ICOM - ICOM

□Emergence of 'community museology' and the 'integrated museum' -museums linked to a social purpose, regeneration and development, often in poor urban or isolated rural communities. They are seen as a more democratic vision for museums, with choices being made by local people. □Experimentation in Mexico, Brazil, France

New museology, communities, ecomuseums

"New trends in museology" The term 'museology' specifies here a set of theories and critical reflections related to the museum field. The definition adopted by ICOFOM includes a number of different currents, sometimes divergent, but all connected to a specific relation that man feels with reality throughout the museum experience.

France (1971).

Museology - Wikipedia

The conference aims to evaluate and contextualise changes that have been moving museums and galleries towards new trends in digital and social media over the last three decades. The suggested period looking back to 1989 refers to the Velvet Revolution regarding the post-communist countries within our region.
