Pathology And The Postmodern Mental

Pathology and the Postmodern explores the relationship between mental distress and social constructionism using new work from eminent scholars in the fields of sociology, psychology and philosophy. The authors address: how specific cultural, economic and historical forces converge in contemporary psychiatry and psychology; how new syndromes, subjectivities and identities are being constructed and

Pathology and the postmodern : mental illness as discourse ...

The introductory chapter of Pathology and the Postmodern frames the collection of chapters in terms of their varied contributions to the status of the pathological as this is experienced, lived, talked about, not talked about, denied, scientifically categorised or 'explained' and otherwise treated in our contemporary postmodern world. The focus on 'mental illness' is of necessity ambiguous, with the boundary of what is and is not deemed 'mental' being a focus of critical scrutiny and ...
