The problem is, measuring reading level is really outside of its sweet spot as a learning tool, with better resources available from DRA, DIBELS, Lexile, Reading Recovery, and Rigby, among others. There is also the issue of availability, with most schools only using one or two of these tools, and primarily in early elementary school.

The PM Benchmark Kits are levelled using a numerical sequence with fine gradations, running from Level 1 to Level 30. The early levels are not equated with years spent at school, grade levels or Reading Ages. This is because some children start their formal schooling before five, while others may not begin until six.
