### Ss Carb Thunderjet Installation Instructions

**Ss Carb Thunderjet Installation Instructions**  
Thunderjet™ is a jet-able, externally mounted third fuel circuit that improves the performance of 2-circuit carbs such as the S6S Super. Unmodified, these carbs typically have a low speed, or intermediate, circuit that supplies fuel from idle to approximately 2500 rpm, at which point the carbs' main jet circuit becomes active, delivering more fuel to the engine.

### SS CARB THUNDERJET INSTALLATION INSTRUCTIONS

To test the main jet, do a roll-on from 50-mph to 70-mph in 3rd gear. If the engine backfires or breaks up in the carb, increase the main jet size .004". If the engine is flat or will not accelerate, decrease the main jet by .004". Since 2004 S6S shorty carbs have been fitted with an adjustable main jet air bleed (#13).

### Carb Quick Guide | S6S Cycle

First thing I have been reading is once you install a thunderjet the next step is to throw away the S6S tuning instructions because you have a totally different animal now. My first question is the external air bleed, am I correct in saying this is only required on the older carbs due to the new ones already having a internal air bleed thats ...

Bruce and Aaron show you step by step how to jet and tune your S6S Super E or G carburetor and put it on the Dyno to show the results. Carb tuning and carb jetting made easy!

### S6S Cycle - Carb Jetting and Tuning - S6S Super E & G Carburetor

A large knurled knob with an index pointer makes adjustment easy. Each kit comes with complete instructions and necessary mounting hardware. Installation is easy and tech support is available. Power Jets and Thunder PowerJet. Power Jets have been around for a long time and are a great addition to any carburetor.

### Thunder PowerJet - Thunder Products Carburetion Performance

CARB INSTALLATION Read instructions thoroughly to familiarize yourself with all procedures before beginning installation. NOTE:Installation of S6S® Super E and G carb kits on certain models is easier with gas tanks removed. Some owners may elect to perform installation without removing gas tanks. This is left to individual discretion.

### Instruction 05-29-14 510-0251 S6S Cycle, Inc

\* Thunderjet's patented third fuel circuit has a built-in air correction system that permanently solves the problem of poor mid-range and /or lean top-end performance. \* The system can operate over a wide range of altitude and atmospheric conditions \* Made in the U.S.A. \* Machining of carb body is required.

### Thunder Jet S6S Super E and B Carburetors

Now after actually having installed one all I can tell you is this thing is hard to install and my advise is don't do it. Just buy a new carb that already has a Thunderjet installed. The only way you install this thing yourself is if either you're a master machinist, or you're stupid as a rock like I am. Don't say I didn't warn you.

### motorcycle S6S carburetor fix

1. Set old carburetor and new carburetor side-by-side on work bench. 2. Examine linkage connection (throttle cable (rod) and kickdown cable (if applicable)) transfer to new carburetor in same location if possible. 3. Install flange gasket over intake manifold studs on intake manifold, then install your new carburetor. Install throttle

### HR:Slayer:SS Series Instructions

Mounting the Carburetor Using 3/8-16 socket head cap screws - install from the manifold side and thread into the carburetor (figure 5). Check to make sure the lower bolt is not too long, making unwanted contact with the fuel bowl (figure 6). This could cause damage. If it does, then source a shorter lower bolt.

### CARBURETOR Installation and Tuning - Ultima Products

According to Zippers I should be at a 34 or 35 int. with a 74 main. I'm starting to get some old weber carb deja vu going on . MARV ... I am now running a 33 slow jet, 74 main jet, and a 135 (.053) air bleed and a 120 thunder jet. I think I was underestimating the impact the airbleed has on the main jet ... but I'm getting ready to install a S ...

### Thunderjet Tuning | Page 2 | Big Dog Motorcycles Forum

If you've ever installed a Thunderjet®, you know the biggest challenge is the setup - getting the carburetor body to just the right angles to drill the holes. These fixtures take the hassles out of setting up to install the Thunderjet® by clamping the components at the correct angles for installation in a drill press or mill.
