Literary autobiography is the most highly developed form of this universal activity of self-promotion, a kind of writing practised in the west over many centuries. In this major study of the western tradition, John Sturrock analyses the means by which more than twenty of the greatest literary autobiographers have gone about their task.

Introduction: Theory of Autobiography
The word autobiography was coined towards the end of the eighteenth century at which time three Greek components auto-bio-graphia, meaning "self-life-writing" were combined to describe a literature already existing under other names (memoirs and confessions, for example).
