Wild Garlic The Journal Of
Wild garlic can help purify the body from poisons. It can clean the liver, kidneys, insides and nerve bladder. A 2012 study published in the journal Basic & Clinical Pharmacology foundthat garlic was just as effective at eliminating lead from the body as d-penicillamine without any side effects. 3.

Wild Garlic: The Most Effective Broad-Spectrum ...
Tasty wild garlic (allium ursinum) is always one of the early stars of spring, with its pungent leaves, and pretty white flowers, both of which are edible. It naturally grows in woodland and carpets the ground under trees giving a heady scent of garlic to the air. Although it likes shady damp woodlands, it doesn't like to be sat in wet soils.
